With pole: Height = 23.5" Length = 23.5"

Conservation / Mounting Requirement / Condition Concerns:

Some areas rusted or dark with oxidation on the metal. The metal cap at the end of the wooden stick is loose (put back into place 05-16-2018 Yearous, Jenny) the paper is torn on the left side where the neck curves into the back. On the right side at the bottom of the nose and most of the area at the back of the neck. Also the area under the wire on the right side. On both sides the paper is worn and wrinkled. The base of the nose is broken and missing It appears that the Paint on the legs are scratched and worn. The wooden handle is soiled. Paint on the wheels is badly worn. Wood is worn on the tips of the ears. the metal piece that connects the back left leg to the axle is missing. Advertisements from the day show a rider on the horse this figure is missing.
